DATE MAILED:

Please find below and/or attached an Office communication concerning this application or proceeding.

## Commissioner for Patents

The Information Disclosure Statement filed on 10/6/2004 is not fully responsive to the Request for Information under 37 CFR 1.105 mailed 6/4/2004 because of the following omission(s) or matter(s):

The request for information asked applicant to provide copies of each publication which any of the applicants authored or co-authored and which describe the disclosed subject matter of producing angular values for datapoints, particularly for fluorometric data. The title, citation and copy of each publication that any of the applicants relied upon to develop the disclosed subject matter that describes the applicant's invention, particularly as to developing methods for categorizing datapoints using angular values, particularly for fluorometric data, was requested. A concise explanation of the reliance placed on that publication in the development of the disclosed subject matter was requested. The title, citation and copy of each publication that any of the applicants relied upon to draft the claimed subject matter and a concise explanation of the reliance placed on that publication in distinguishing the claimed subject matter from the prior art was requested. A statement whether any search of prior art was performed and if a search was performed, the citation for each prior art collection searched was requested. Any art retrieved from the search material to demonstrating the knowledge of a person having ordinary skill in the art to the disclosed method was requested, including the citation for each piece of art considered and a copy of the art.

The IDS does not make clear what portion of the Request for Information the art cited was responsive to.

Applicant is advised that the preliminary amendment submitted 10/6/04 has not been entered as applicant did not respond to the Notice of Non-Compliant Amendment mailed 10/18/04. (See provisions regarding entry on Notice.) Even if it had been entered, this communication did not address the Request for Information under 37 CFR 1.105.

See 37 CFR 1.111. Since the above-mentioned reply appears to be *bona fide*, applicant is given **ONE (1) MONTH or THIRTY (30) DAYS** from the mailing date of this notice, whichever is longer, within which to supply the omission or correction in order to avoid abandonment. **EXTENSIONS OF THIS TIME PERIOD MAY BE GRANTED UNDER 37 CFR 1.136(a).**

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Marianne P. Allen whose telephone number is 571-272-0712. The examiner can normally be reached on Monday-Thursday, 5:30 am - 1:30 pm.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Ardin Marschel, Ph.D., can be reached on 571-272-0718. The fax phone number for the organization where this application or proceeding is assigned is 571-273-

Patent applicants with problems or questions regarding electronic images that can be viewed in the Patent Application Information Retrieval system (PAIR) can now contact the USPTO's Patent Electronic Business Center (Patent EBC) for assistance. Representatives are available to answer your questions daily from 6 am to midnight (EST). The toll free number is (866) 217-9197. When calling please have your application serial or patent number, the type of document you are having an image problem with, the number of pages and the specific nature of the problem. The Patent Electronic Business Center will notify applicants of the resolution of the problem within 5-7 business days. Applicants can also check PAIR to confirm that the problem has been corrected. The USPTO's Patent Electronic Business Center is a complete service center supporting all patent business on the Internet. The USPTO's PAIR system provides Internet-based access to patent application status and history information. It also enables applicants to view the scanned images of their own application file folder(s) as well as general patent information available to the public.
